EDUCATION

Amity School of Engineering and Technology (2019 - 23) | B.Tech (CSE) | CGPA : 8.20

PROJECTS

Dev Connector [Live Demo](#) | [Github Repo](#)

- A social network of developers where users can create their portfolio by adding their education, skills and experience. Small posts can be created containing a feature of likes and comments on fellow user's posts. Github API is used to fetch last 5 updated repositories of the user.
- **Technologies Used** : *Github API, React.js, Node.js, Express.js, MongoDB, Redux, JWT*

CodeRED [Live Demo](#) | [Github Repo](#)

- CodeRED aims to provide quick and nearby access to sanitary napkins and toilets in all parts of the world by creating a map of all stores and restrooms and incentivising users to add their own restrooms or stores to the map.
- Google Maps API is used to help users locate nearest store or restrooms during emergency using browser's geolocation.
- **Technologies Used** : *Google Maps API, React.js, Node.js, Express.js, MongoDB*

MyWallet [Live Demo](#) | [Github Repo](#)

- A basic CRUD application which tracks down the expenses with the feature of adding and deleting the expenses with a short description.
- Continuously updates the total income, expenditure and total amount left in the wallet.
- **Technologies Used** : *React.js, Node.js, Express.js, MongoDB, Redux*
